BAKER'S BEST - I.D., light lemon or primrose yellow, the reverse pale lemon. Size, $10\frac{1}{2}$ by $5\frac{1}{2}$ with fine substance. The bush growth is strong and vigorous.

BAKER'S BEST scored 85.8 at Storrs this year and was much admired in the garden there. You will find this dahlia listed on Lynn Dudley's Honor Roll in the Flower Grower.

For the first time we are introducing a dahlia which was not originated at Hillside Farm. This grand dahlia which we have the honor of handling was originated by our friend, Arthur Baker, who has enlisted in the Navy.

Because of the pressure of work we were not able to exhibit BAKER'S BEST this fall, but we feel sure it will be a winner.

Strong root divisions \$6.65; plants \$2.25.
